# James Martin

Contact me: jamestmartin.me / james@jtmar.me

## Summary

Self-taught programmer, habitual moderator, and digital rights advocate.

Pertinent interests: programming language theory, operating systems, distributed computing, and CPUs.

## Skills

- Programming languages: Java, x86-64 Assembly, Rust, Haskell, (X)HTML5, CSS, SQL.

- Systems Administration: Debian GNU/Linux.

## Experience

**drawchan**, Developer & Administrator                                            03/2019 - Present

- Developer of the drawchan imageboard software.

**Programming Language Design community**, Moderator                              06/2018 - Present

- Moderator of /r/ProgrammingLanguages and the /r/ProgrammingLanguages Discord.

- Administrator of matrix.qipl.org, a Discord↔Matrix and Matrix↔Freenode bridge.

- Maintainer of www.proglangdesign.net.

- I made it my mission to integrate these formerly-independent subcommunities.

**Hazen Robotics Club**, Java Developer                                            09/2017 - 10/2018

- Volunteered for 90 hours to mentor programming at summer robotics camp.

- Taught club members basic tools like Java and git in addition to own programming tasks.

## Academics

**Hazen High School** - Renton, WA                                                      2015 - 2019

- AP Credits: Computer Science (5), Physics 1 (4), Biology (4).

- Pending AP credits: Microeconomics, Macroeconomics, Calculus AB, Government.

- Member of marching, symphonic, and jazz bands.
